

Empowering Parents

At this strange time, with Covid restrictions impacting us all, we wanted you to know that we're still here doing all we can, with the resources we have, to champion families across the UK.

We let you know in our last update about our second YouTube series, [Empowering Parents](#), and the series finishes at the end of this month. We have been so grateful for feedback we have received, and would be really grateful if you could subscribe to the series, share it and (if you haven't already) let us know what you think – Is there a subject you think we could focus on more in a future series? Which interview was your favourite?

We are excited to announce that we are planning an Online Vision Event for Manchester, which will be running over lunchtime on **Tuesday 16th March**. This free event will introduce those working with or supporting families to lots of the fantastic resources we promote and will include interviews with the leaders with some great charities. If you live in the Manchester area, we would love to see you there, and you can reserve a free ticket [here](#).

We've recently updated our [About Us](#) section for anyone new to all things NPI. We have also been busily adding to our Blog section, with posts on supporting children through bereavement and some lockdown home school encouragement, which you can find [here](#).

Thank you for continuing to support and pray for our vision.
